

CAPTIVE WIFE SEES KILLINGS FAIR GROUND IS BUSTLING WITH ACTIVITY

Alice Longworth Says

(Special To The News)
JACKSON HOLE, Wyoming, Aug. 25.—The American state department refuses to put this country into the present world picture as intermediary in the Spanish civil war.

Americans who are unqualifiedly devoted to the ideal of peace may regret that the United States should apparently neglect an opportunity to act as peacemaker. Sober second thought should convince such persons that Mr. Cordell Hull is acting wisely.

Intervention is never welcomed by either side in civil conflict. The neighbor who steps into a domestic brawl traditionally comes out through the window, much the worse for wear.

This country cannot afford to take sides in the internal upheaval in Spain where issues are involved that Americans do not pretend to understand. We could not go in and get out again without becoming embroiled in the controversy between Reds and Fascists, and such involvement could add nothing to American prestige.

If South American republics of Spanish origin wish to take a chance as mediators, that should be their own affair. The United States has learned to mind its own business.

New Castle Fair Gets Away Today To Great Start

Opening Day Of Annual Fair Sees All Indications Of Fine Success

RACES TO START ON WEDNESDAY

Judging Of Stock Exhibits By Experts Will Be Started Tomorrow

It looks like a New Castle year for the fair. With hot weather apparently certain, a fast track, a long list of good horses, and an unusual entry list of cattle, swine, sheep, poultry and other animals the New Castle fair which opens today seems set for the best season since before the depression. Add to this an extended midway with its hot doggeries, its palm reading experts, pop corn, and ice cream stands, restaurants and the usual number of concessions and it all adds up to a mighty good prospect for a successful fair.

The race program starts on Wednesday afternoon when the 2:27 trot, the 2:13 pace and the 2:18 trot will be run. In the 2:27 trot a New Castle owned horse, Adam Poe, owned by John McKinley is a promise while in the 2:13 pace, Petercan who did 2:07 at Butler a few days ago promises to break the track record of 2:06 3-4, for which an added \$50 is offered. Pat Harrison Has Election Battle

Torrid Primary Campaign Is Ending At Polls In Mississippi Today

(International News Service)
JACKSON, Miss., Aug. 25.—The Democracy of Mississippi went to the polls today at the close of a torrid primary campaign to either return the veteran Pat Harrison to the United States senate for a fourth term or replace him with former Governor Sennett Conner. A third aspirant, Frank Harper, is an unimportant factor in the race.

The state's junior senator, Theo Bilbo, has been on the stump for weeks in behalf of Conner. He broke with Harrison over the appointment of Edwin Holmes as U. S. circuit judge. Years ago Holmes jailed Bilbo at the trial of former Governor Lee Russell.

Harrison has played Conner as a "New Deal" foe and has said his election would be construed as a repudiation of the Roosevelt administration. Conner has denied being opposed to the national administration but has said he would be no "rubber stamp" senator. Both camps issued last minute statements claiming victory.

South Carolina Voters Go To Polls

Democratic State Primary Interest Centers In Speaker Byrns' Renomination Fight

(International News Service)
COLUMBIA, S. C., Aug. 25.—Chief interest centered on Senator James F. Byrns' strong fight for renomination today as more than 300,000 voters marched to the polls in this state's Democratic primary election. A senatorial nominee, along with six congressmen, four of whom have opposition, are to be voted on in today's primary. Byrns, opposed for renomination by two strong candidates, has waged his campaign along strictly "pro-Roosevelt" lines, while his opponents, Thomas Stoney a former mayor of Charleston, and Colonel William C. Harlee, a former marine officer, have assailed certain phases of the national administration program.

In a side issue, of strictly state importance, the popularity of Governor Olin Johnston's regime will be voted upon.

THOUSANDS GREET LONDON IN BUFFALO

BUFFALO, N. Y., Aug. 25.—A cheering throng lining the streets gave Gov. Alfred M. Landon a hearty welcome here today as he arrived to deliver the third major speech of his first campaign trip. The governor will speak on federal finances in the International League baseball park tomorrow night.

Landon was given a tumultuous reception at the railroad station, where a crowd of 5,000 jammed the plaza to shout greetings. He rode to a downtown hotel through other cheering thousands, halting momentarily at a downtown corner to view the raising of a huge Landon and Knox banner.

Following a noon luncheon as the guest of Edwin P. Jaekle, Republican chairman of Erie county, the nominee planned an afternoon of conferences with G. O. P. leaders from all parts of New York state. Melvin C. Eaton, state chairman, will participate.

Republican women of western New York meanwhile lunched separately to hear Miss Natalie Couch, chairman of the women's division of eastern campaign headquarters, discuss Landon's qualifications for the presidency. She was the nominee's guest throughout his eastern trip.

Roosevelt Insists Drought Area Tour In West Is Non-Political

TO MEET GOVERNORS IN PARLEY SEPT. 1

Election Day Eleven Weeks From Today To Determine New Deal's Fate

By GEORGE R. HOLMES
International News Service Staff Correspondent
WASHINGTON, Aug. 25.—Eleven weeks from today some 40,000,000 voters will troop to the polls to endorse or reject the New Deal.

Ostensibly unimpaired of that fact, and leaving his Republican rival busily campaigning in the east—in fact, in his own state—President Roosevelt sets out tonight on a 4,000-mile journey through a dozen states which will bring him into contact and conference with scores of mid-western leaders in the next ten days.

"Non-Political"
Mr. Roosevelt insists that his trip is "non-political," and concerned solely with getting a first hand view of the ravishing effects of the worst drought in the country's history—a drought that has seared and burned the nation's most productive area and brought hundreds of thousands of farm families to their economic knees, appealing to the federal government for help.

Conceding the sincerity of Mr. Roosevelt's desire to keep politics off his train, the politicians of both parties nevertheless do not think it possible. After all, there is traditionally and actually a political tinge whenever a president ventures forth from Washington.

And in a campaign year, such as this, the political aspect becomes (Continued On Page Two)

Prime Minister's Son Takes Bride

Wedding Occurs In London This Morning—Bride New York Banker's Daughter

(International News Service)
LONDON, Aug. 25.—In a quiet civil ceremony in Caxton Hall registry, with only a few close friends present, Arthur W. Baldwin, youngest son of the prime minister, and Miss Joan Elspeth Tomes, youngest daughter of the late C. Alexander Tomes, New York banker, were married this morning.

Prime minister Stanley Baldwin who is on a holiday in Wales, did not attend the ceremony.

The bride, 34, has been living with her mother, Mrs. C. A. Tomes, at Lossiemouth, Scotland, the home of former premier Ramsey MacDonald. Baldwin met her eight years ago through his sister.

Unlike his father, and brother Oliver, a member of parliament, Arthur Baldwin, who is 32, is not interested in politics. He is a director of steel companies.

German Reichstag To Meet On September 9

(International News Service)
BERLIN, Aug. 25.—The call that invariably means decisions of great moment for Europe—a meeting of the German Reichstag—went out today for the first time since the anxious days of last March. Summoned to meet at Nuremberg during the Nazi party congress being there Sept. 2, the Reichstag is reported, will be asked to follow yesterday's decree doubling the military conscription period by a sweeping order "mobilizing" all German youth in the service of the state.

The youth structure similar to the Italian "Balilla" which gives semi-military training to lads still in their early school years is projected, it is said.

Germany's youth, then, will be mobilized in conjunction with a party congress that is primarily to be concerned with "the world menace of communism." It was in connection with this same "menace" that conscription was extended to two years. When the Reichstag was summoned in March, 1935, Adolf Hitler announced the rearmament of Germany and the resumption of compulsory military service. In March of (Continued On Page Two)

WESTFIELD, N. Y., Aug. 25.—After charging the Roosevelt administration with using the machinery of government to maintain itself in power through the "most shabby form" of propaganda, Gov. Alfred M. Landon today looked forward to a series of conferences with Republican leaders in Buffalo before delivering his third major speech of his first campaign tour into the east.

The Republican nominee will speak in Buffalo tomorrow night on federal finances, waste in Washington and the need for governmental economy. He will spend two days in Buffalo, departing late Wednesday night for his home in Topeka.

The governor was highly pleased with the tumultuous reception given him on his invasion of the industrial east. Congratulations poured in upon him for the first two major speeches—"public education" at Chautauqua, N. Y., and on "Americanism" at his birthplace, West Middlesex, Pa.

Plan Appeal To Spain For Humane Conduct Of War

Estranged Wife Forced To Watch Double Killing

Husband Of Washington Woman Kills Her Friend And Then Self

DRIVES HER AROUND IN CAR WITH BODY

Gilmer L. Snyder, 26, And Clifton D. Thomas, 27, Husband, Are Victims

(BULLETIN)

WASHINGTON, D. C., Aug. 25.—A jealous husband today forced his estranged wife to watch him kill her male friend and to motor 70 miles through Virginia beside his dead body before he stopped the car and fatally shot himself.

The dead are: Gilmer L. Snyder, 26, also married and separated from his wife; and Clifton D. Thomas, 27, the maddened husband.

Accosted By Husband

Mrs. Lillie B. Thomas, the wife, a beauty shop employee, said her husband saw Snyder and her return from a motor ride early today. He pulled out a pistol she said and forced them to re-enter the car.

Still pointing the pistol at Snyder, she said her husband took the wheel and drove wildly into Virginia. As the machine passed through nearby Alexandria he fired a bullet through Snyder's heart, killing him instantly.

With his body slumped beside her, the terror-stricken wife said her husband continued the drive south at breakneck speed until he reached King George court house—about 75 miles from Washington. There he stopped the car and got out.

To End It All

"I'm going to end all of this now," she said he told her and despite her screams he fatally shot himself.

Thomas was a hospital attendant while Snyder worked for an automobile dealer.

A coroner's jury at King George court house issued a certificate of murder and suicide.

Ten Naval Officers Executed By Spain

(International News Service)
MADRID, Aug. 25.—Within a few hours after they pleaded guilty to aiding the rebels, ten naval officers today were executed by a firing squad at Malaga.

At a summary court martial they admitted transporting Moore and foreign legionnaires from Morocco to Spain, and refusing to bombard the rebel Moroccan port of Melilla.

If rebel claims that Malaga has been captured prove true, the naval officers were executed with their rescuers almost within sight.

Across this broad and favored land, where blooms the corn and rye, a cloud appears, not much in size, and darkens now the sky. A little cloud that grows in size, and like wise grows in scope, it is the wordy orators who carry fear and hope within the words they soon will bring, advice and ballyhoo, intent on telling you the way you'll vote when they get through. And soon the cloud will darken all, the words will fall like hail and you and I will fondly wish they all were placed in jail. But we must listen to their fluff, and hark to what they say, ah me, the price of government, its ninety one today.

TO TRY NEW RELIEF PLAN

Relief Board Approves Move

Local Bodies To Direct Relief Administration In Six Counties

PERMANENT PLAN UP TO LEGISLATURE

(International News Service) HARRISBURG, Aug. 25.—Localization of relief administration, fiercely debated during the recent special session of the legislature, today was definitely projected into the program for the forthcoming regular session in January.

Discussing features of an experimental relief plan, approved by the state emergency relief board yesterday, that will return administration of relief back to local bodies on a trial basis in six counties of the state, Gov. George H. Earle said:

"The coming session of the legislature is going to set up a permanent relief system and if it goes into the matter blindly, it is going to make a terrible mistake."

Admitting the proposed plan, combining a system of giving cash relief instead of orders with the administration centered in a local administrative unit, is "frankly an experiment," the governor said the program could not be worked out unless the local groups had "absolute autonomy."

"This plan can be no test of relief localization as contrasted to centralization unless the appointees to the local boards have complete carte blanche," Governor Earle said at a press conference.

GOVERNMENT IS USING MACHINERY FOR PROPAGANDA

(Continued From Page One)

audience of 12,000, Landon charged the administration with spreading propaganda to upset the faith of the people in their form of government. He demanded schools be kept "free of all control by the federal government," called for repeal of the so-called "red-riding hood" imposed on teachers in the District of Columbia, and urged support of "academic freedom."

He said: "Another danger from propaganda is now present. It is more serious than the danger of our teachers becoming propagandists. It concerns widespread use of the machinery of the federal government to maintain the present administration in power, and to bring into question the faith of the people in their way of life and in their form of government. When money is forcibly taken by government from citizens and used to tear down those things most precious to our people, we see propaganda in its most shabby form."

Freedom From Politics. Declaring for schools, press and radio, free of politics, Landon said: "Today, perhaps to a greater degree than ever before, the control of our educational institutions must be kept in the hands of the local

communities and the educators themselves. For we may as well face the fact that the tide is running against free government today. In many lands, the hand of government is closing down upon education. It is being made into a tool, for autocratic purposes. In these countries free inquiry in the pursuit of enlightenment for its own sake is being destroyed.

In these days of widespread propaganda, it is imperative that our teachers be kept free and that our educational institutions, our newspapers and the radio be kept independent, either from control of autocratic government or from the influence of any selfish interest.

"There must be no censorship of what is spoken or written, and equally important, there must be no control of the source of news."

For Free Government. In conclusion, he sounded another note for freedom:

"The right of free inquiry is one of the essentials of free government. It is the very bedrock of democracy."

"We must ever remember that academic freedom, political freedom, religious freedom and freedom of opportunity, are all bound together. Infringement upon one will soon lead to infringement upon the others. In fighting to maintain our freedom, we will make greatest progress by fighting for the freedom of all."

In a beautiful tribute to school teachers everywhere, he said:

"The self sacrifice and devotion of our teachers is one of the finest examples of public service."

"I believe that a teacher has a right to the same freedom of speech in expressing his political, social or religious convictions as any other citizen."

"And I believe that a teacher has the same right to work for the accomplishment of his political and social ideals as any other citizen."

The governor's schedule for today as announced by E. Ross Bartley, his press representative, called for him to leave here at 9:30 a. m. (E. S. T.), arrive at Buffalo at 11 a. m., where he was to begin the conferences with party leaders, attend a meeting of western New York Republican women's clubs and spend tonight at the home of E. H. Butler, Buffalo publisher, prior to his Wednesday night address.

WASTE PAPER BURNING BRINGS NIGHT ALARM

Momentary excitement developed downtown at 10:15 p. m. last night when five fire companies sped to the McKinley & Frantz store corner, East Washington and South Mercer streets, in response to an alarm sounded for what turned out to be a waste paper fire in the building's furnace.

Someone thought the flames shooting out of the building's chimney was a roof fire and telephoned Central station. The alarm was sounded from Box 25.

Both bodies were removed to an undertaking establishment in Tetonia, Va., and Mrs. Thomas was turned over to Justice B. W. Walker, of King George court house, for questioning.

Woman Released. She was released after a verdict of murder and suicide had been issued by the county coroner.

Mrs. Thomas said she had been separated from her husband for several months and had been "having trouble with him" since then.

Snyder's wife, Mrs. Lucille Snyder is a stenographer in the state department.

Mrs. Thomas said her husband forced Snyder to sit between her and her husband on the wild ride.

After the coupe speeded along the highway south of Alexandria, where Thomas fired the bullet into Snyder's heart without slackening his speed, she said Snyder's limp body slumped first upon her and then upon her husband by the jolting of the car.

The wife was frantic, she told the authorities, but despite her pleadings her husband continued his wild drive.

Very Few Words. She said her husband spoke only a few words during the mad ride and that was to accuse her of "going out with Snyder."

Thomas was standing in front of the apartment his wife rented following their separation and saw her alight from Snyder's small car at midnight. Snyder, too, got out and started to escort her to the door.

Then, she said Thomas confronted them with a pistol and a command "to get back in that car."

They obeyed and then the infuriated husband told Snyder: "You sit in the middle."

Mrs. Thomas said Snyder was horror-stricken over being confronted by her husband and did not protest.

REBELS LAUNCH GREATEST DRIVE TO TAKE MADRID

(Continued From Page One)

Loyalist militia, rebel broadcasts today asserted that the important southern seaport was captured by the insurgents.

Rebels Push Eastward. Another column of Gen. Francisco Franco's rebel troops continued to push eastward towards Toledo and Madrid from the Badajoz-Merida area, but the mass movement in the Sierra Guadarrama made it apparent that the insurgents' big bid to take the capital was being made from there.

Although the government is said to have been handicapped by the rebel bombardment of Getafe, airdrome—admittedly, but without details, for the first time today—Loyalists retaliated with a raid on Granada, where two rebel planes were allegedly destroyed while three more were said to have been shot down over the Guadarrama mountains.

Capt. Bayo, leader of the Loyalist expeditionary force trying to wrest the island of Majorca from the rebels, sent a message to the president of the Catalanian parliament, Luis Companys, saying that his offensive was "progressing satisfactorily."

Rear Admiral Binney of the British cruiser Shropshire called on President Companys at Barcelona, accompanied by the British consul, but the nature of his business was not stated.

The rebels are now understood to have fully 10,000 Moors and foreign Legionnaires in western, southern, and northern Spain but dissatisfaction is alleged to be growing among the natives now under rebel rule in Morocco, and recruiting is becoming extremely difficult there.

Government Claims Progress

Madrid, Aug. 25.—Battling the civil war's greatest concerted attempt by rebels to take Madrid from the north Spain's leftist government today claimed its forces are making "steady though slow progress" against insurgents in the Sierra passes.

The announcement by the government followed launching of an attack all along the 100-mile Guadarrama front by rebel troops supported by 5,000 Moors.

The government also stated its airplanes were bombarding Oviedo and Cordoba, and it was reported non-combatants in both cities are suffering severely owing to lack of food and water and also because of artillery bombardments.

The government's airplane bombing expeditions so far have failed to force the rebels to surrender.

Meanwhile, the "peoples' tribunal" a court created yesterday by the government for summary trial of its enemies, began operating.

Because 7,000 persons await trial on charges of rebellion and other types of anti-government activity, the tribunal here began to try them summarily in batches.

Twenty-four army captains, lieutenants and sub-lieutenants of the regiment which revolted at Alcala De Henares went to trial today. Impression prevailed in Madrid that nine of these defendants would be sentenced to death and executed.

NEW CASTLE FAIR GETS AWAY TODAY TO GREAT START

(Continued From Page One)

the 2:27 pace, the 2:19 pace and the two year old baby trot. In the 2:19 pace a couple of speedsters are entered that can better 2:07 and here again the track record is in danger.

For the races the track is hard and fast. For the night events on the track, the aerial events, and the pulling contest by work horses, huge flood lights have been installed which will light the track like day.

The cattle burns are filling up fast. A Clyde Shoaff, manager of the fair is enthusiastic this year and when Shoaff gets enthusiastic ordinary folks are practically in a dither.

Judging of the cattle will start at 12:30 Wednesday. William McCoy of Mercer will judge the cattle, hogs and sheep and Dr. Sam McDougall of Grove City will judge the show horses. H. E. Goll of Beaver will start the bangtails around the track. It looks like a real fair. The fair extends through Thursday.

PRESIDENT WILL BEGIN MID-WEST JOURNEY TONIGHT

(Continued From Page One)

inevitable more fixed in public mind. Especially in view of the fact the campaign already is in full swing.

"Political" Anyway

The language purist would insist that the trip is political anyway, for the dictionary defines "political" as "pertaining to public policy." To the science of government. And probably Mr. Roosevelt would be the last to insist that his trip does not pertain to public policy or to the science of government. In any event, the president and his advisers insisted the journey would be as "nonpartisan" as it is possible to make it. The dictionary defines "partisan" as "relating to a party or a faction."

The high point in Mr. Roosevelt's trip will be at Des Moines a week from today when he meets there the governors of Iowa, Nebraska, Missouri—and Gov. Alf M. Landon of Kansas, his Republican rival for the presidency. It will mark the first time in the political history of the country that two major candidates for the presidency have come into intimate contact in the midst of their campaign. Trails of rival candidates have crossed before, messages have been exchanged, but the records fail to show a vis-a-vis meeting such as will take place at Des Moines.

To Meet Governors. The president and the governors, including Mr. Landon, will discuss drought relief and probably little else.

ORCHESTRA CONCERT CHANGE AT FIELD CLUB

The orchestra concert scheduled at the New Castle Field club on Friday evening, August 28, has been postponed until the night of the club's annual corn roast, September 3.

Corn and winners will be roasted at the club grounds at 6 o'clock on September 3, and immediately following the feast, the orchestra will present a program on the terrace, for the entertainment of attending guests.

The same numbers to have been contributed by the musicians this week as scheduled on the club bulletin will be heard at the outing, September 3.

CALIFORNIA GUEST IS AGAIN HONORED

Miss Martha Whiting of Pasadena, Cal., who has been visiting several weeks in this vicinity with relatives and friends, graced the roll of honor again Saturday evening when Mrs. Ivan Holsinger, Edgewood avenue, entertained a group of friends informally at dinner.

The menu was served at 6 o'clock at a table appointed in tones of amber and crystal, with a centerpiece of yellow Chasta daisies. A period of conversation and other pleasures provided further enjoyment afterwards. Mrs. Holsinger was assisted with festivities by her mother-in-law, Mrs. Emma Holsinger.

Miss Whiting formerly resided in New Castle, and since her arrival has been made known she has been feted at a number of parties, providing opportunities to renew friendships. She will make the journey back to California Thursday this week.

FIELD CLUB BRIDGE FOR MEMBERS THURSDAY

Affording its members an opportunity of getting away from the scorching heat of the city and downtown pavements, the New Castle Field club announces another interesting social event this week that will attract a large number of its membership.

The occasion is an evening bridge for both men and women, and will take place Thursday, with play beginning shortly after eight p. m., with Judge and Mrs. J. A. Chambers presiding as hosts. The usual round of competition will feature the early hours and handsome prizes will be awarded those capturing honors at the close of the contests.

The serving of a tasty and cooling repast will conclude the program.

OFFICE ASSOCIATES HONOR ELLA BAILEY

As a courtesy on her birthday, which occurred Monday, office associates of Miss Ella Bailey, at Hanes's store, tendered her a dinner last evening, downtown.

Covers were laid at pretty tables for seven, including two special guests, Mrs. I. H. Bailey and Miss Margaret Zimmerly. Later evening hours were spent informally at the home of Miss Bailey, on Beckford street.

For luncheon at the honored guest's home, the table had been arranged by her father, J. E. Bailey. A large birthday cake and summer flowers formed the centerpiece, and the places were marked with fresh rose buds attached to dainty candy baskets.

RECENTLY WED COUPLE WILL RESIDE HERE

Mr. and Mrs. Charles Edward Lowers, who are on a two weeks' wedding trip, will take up residence at 922 East Washington street upon their return. The bride is the former Hazel Hicks of that address.

The wedding took place on August 19, 1936, at Wellsburg, W. Va., with Rev. Wilkinson officiating. Mr. and Mrs. E. Schrader of Steubenville, O., were their only attendants.

Mr. and Mrs. Lowers, the former an associate salesman of the H. G. Preston Co., will spend sometime with his sister, Mrs. Richardson, and daughter in Gary and Hammond, Ind., before returning to New Castle.

McCracken Reunion

The ninth annual reunion of the McCracken families, was held Saturday, August 22 at Rock Springs, near Harlansburg, with approximately seventy-five in attendance. A bountiful menu was served from the baskets, and afterwards, the time was spent in swimming, dancing and other sports with the latter program being in charge of Mrs. Mary Gilkey and Mrs. Rachel Jones. Winners in the contests, included Sammy Dale McCracken, Nancy Jones, Juanita Blair, Raymond McCracken, Jack Shaffer and Mrs. Ruth West.

During the business session, with Francis McCracken, president, presiding, officers and committee chairmen were elected and appointed as follows: president, Francis McCracken; secretary and treasurer, Mrs. Esther Shaffer; chairman of table committee, Mrs. Della McCracken; sports chairman, Ed Book.

Because of conflicting dates with other reunions, it was decided to hold the event in 1937 on the first Saturday in September, the place to be decided by the executive committee.

Conclude Trip.

Mr. and Mrs. W. J. Brenneman of Croton avenue have returned from a trip to Montreal and Quebec City, Quebec. At the latter place they visited the famous Shrine of St. Ann DeBeaupre, and enroute home they spent some time at Boston, Mass. Several days were enjoyed at Provincetown, Cape Cod and they report excellent weather throughout the entire journey.

EVERY LAST VOTE COUNTS!

THE single ballot of a citizen of the United States can determine the election of a president. Here is how:

The candidate for the presidency receives the entire electoral vote of each state in which his party polls a majority—and a majority of one vote is sufficient to swing the election in that state. Of course there is occasionally an exception when a state's electoral votes are split, but that has rarely occurred.

Assume then the possibility of a 50-50 division in the electoral college, with the tabulations of one remaining state still to be completed. A single ballot cast in a doubtful state would determine which party was to win the electoral vote of that state, and hence the election.

As a matter of fact, this situation arose in the Wilson-Hughes campaign of 1918, although the Democratic majority in California, which decided that election, was considerably more than one vote.

The practical lesson is the importance of every single vote cast in states outside the Solid South. And that means the importance of registering in order to be eligible to vote. Disgusted or disillusioned people who wearily ask, "What difference can my vote make one way or another?" will do well to ponder this answer.

One solitary vote of an obscure citizen can swing the election!

DOGS AND SANITATION

A hullabaloo is being raised in New York City because sanitation inspectors are arresting owners of dogs and having them fined for violations of the sanitary code by the canines. As usual there are two sides to this question. The extremists on one side insist there should be no dogs in cities. Their argument is the dog serves no useful purpose in a big town. Naturally there's no chance to put this argument over on the humans to whom the dog is a comfort and who are willing to put up with, in and around their homes, the dog's doings that annoy others.

It begins to look as if the dog's life in the city is to be made more difficult, but there are several things that can be done by dog owners that should defer the day of banishment. One is training. Another is more thought for the ideas of others. Those who walk dogs should keep them in leash and not let them wander at will and either spoil plants or run chances of poison. Those who prefer plants to pups easily may install gadgets or use nicotine spray that will deter dogs.

Dog owners as a class will have only themselves to thank if their pets are banished, and if they have the proper affection for their canine companions they will give more thought to the rights of others.

ANOTHER MYTH GOES

What with all the mass and private shootings these days things generally were bad enough, but along comes a ballistic expert in New York and reports that so-called bulletproof vests aren't what they've been cracked up to be. This expert, who has the appropriate name of Butts, concludes not only that the uncomfortable waistcoats do not serve the purpose for which they were made, but that they are dangerous to the wearer who happens to be a target.

The sergeant, to give his official rating in the New York Police Department, says he learned by shooting at the supposed shields that the wearer stands a good chance of infection from particles of the vests that could be driven into wounds.

Sergeant Butts particularly has in mind the safety of his comrades, whose commanders have much confidence in his findings that they have told the men to discard the vests. Thus again do practical policemen dispel many of the illusions that we have enjoyed in stories and films. Apparently we'll have to go back to the treasured book or other keepsake that deflects the villain's bullet and leaves the hero only stunned.

The sergeant also found that the vests worn by the gangsters weren't any better than those the cops had. This finding appeals to the advocates of the even break, but those who want things continued as they are would have been just as well pleased if Buttsey had not butted into our beliefs.

AN AGING GENERATION

Changes in the "age distribution" of the population are no new thing. The process has been going on for a good many years. There was a time at which men were considered old at forty, as a glance at history shows. Now the span of life is getting longer, even beyond the ancient Scriptural limit. Dr. Chaddock, Professor of Statistics at Columbia, says that this fact presents a new challenge to American business management. It will become more and more difficult to fix an arbitrary mark beyond which workers should not be hired, unless the ratio of unemployment is to be greatly increased.

Dr. Chaddock estimates that the number of persons over 65 years old, now about 6,500,000, will be trebled in fifty years. Moreover, there is a decline in the number of persons under 20. As it is, persons must either be employed as long as they are able to work, or else pensioned. As a matter of fact, no hard and fast deadline can be established. Thus every general improvement in the public health brings its own disadvantages.

Whether the figures given are accurate or not, it is plain that men live longer than they once did. Medical science has had a hand in prolonging human life. A plague like the Black Death of the Middle Ages would be all but impossible now. The much-desired abolition of war would spare thousands who might otherwise perish. The question remains how much productive work can be found for so rapidly aging a generation. It is a serious problem which the professor has posed.

ONE HUNDRED and fifty-three leading British economists, mapping out a new plan to preserve peace, say:

"The importance of American participation in the work of peace-making cannot be over-estimated."

It is to be hoped that the part that America will play in future European affairs, such as war financing, may be very easily overestimated.

If those gentlemen cannot abstain from cutting each other's throats without the assistance and money of the United States, why then let them cut each other's throats.

FRANCE IS learning that the people always pay the piper, whoever the piper may be—a great conqueror leading them to war, or a clever politician leading them with taxes.

In France, sugar has gone up in price; bread and veal have both gone up, two sous a kilogram for bread, two sous a pound for veal, and here government is held directly responsible by the housewife as regards the bread, for the French government fixes the price of bread as ours fixes the price of postage stamps.

TRAILING BEHIND England and the United States, the French, with less than 20 per cent of American unemployment, are discussing great public works to absorb the idle.

Billions are spoken of, but the "billion," French word for "billion," means only one billion. Four cent pieces, the franc having been reduced by government fiat to that price. If a billion meant here 25,000 francs, equivalent to the American billion, when the American dollar was good, the French might well faint away, although they are fundamentally a rich people.

WHAT IS FAME?

In the questionnaire issued by London Film Productions for their national film investigation, one question asked the public is to state which Shakespearean Play they would most like to see filmed. The analysis of replies reveals that among others, the following extraordinary subjects are attributed to William Shakespeare:

"Revolt in the Desert," "Glamorous Night," "Bitter Sweet," "The Scarlet Pimpernel," "The Wandering Jew," "The School of Scandal," "The India Rubber Men," and "Sally in the Alley."

Now who cares who this man Shakespeare was. These intelligent answers should reassure the soul of Bacon or the spirit of any of the others to whom the great Plays are attributed that Time is transitory anyway.

Just Folks

THE BLEAK SIDE OF CHARITY

They'll feed you when you're hungry and they'll clothe you when you're cold.

As any tramp can always testify; They'll keep you in the Poor House when you're broken down and old.

And the medics will dissect you when you die.

They'll look on you in pity when you're begging at the door.

But they'll wonder if your money goes for beer.

And the moment you've departed they will think of you no more.

As a beggar you will come and disappear.

If you'll stand upon the highway you can always thumb a ride.

For some generous soul is bound to come along.

But the driver wouldn't let you have his daughter for a bride.

You would merely be another lost soul.

If he thought that you were hungry he would gladly buy your meal.

Just because it seems the decent thing to do.

But although that touch of pity he is willing to reveal.

He would never want to make a friend of you.

Oh, my boy, there's more to living than the needed food and dress.

There is much that charity cannot bestow.

For a man must earn by toiling all he's eager to possess.

And struggle for the joys he wants to know.

He must fill some useful station and by labor pay his way.

And maintain his self-respect at any cost.

For once he turns to begging, though he's fed from day to day.

To everything but pity he'll be lost.

Governor Landon Makes Conneautville Visit

By WILLIAM K. HUTCHINSON
International News Service
Staff Correspondent

CONNEAUTVILLE, Pa., Aug. 25.—Governor Alfred M. Landon dropped his presidential campaign for a while here Monday to visit his old home, his old school, his old church and the burial ground of his revolutionary war ancestors.

At the school house the Republican nominee viewed the room where he first attended school. At his old home he saw the bed in which he slept. At the church he saw the pew in which he sat in divine worship.

Thousands of townspeople followed him as he rode or walked from one family landmark to another.

At the school he was asked whether he had carved his initials on his desk. "Yes," he replied at first, then "no, I did not carve my initials because I would have gotten soaked or that but I carved a lot of other things in my desk."

"I remember how industriously I worked at carving behind my school books."

At the old Landon family home, a low rambling frame building now occupied by Mr. and Mrs. Harry North, he praised an old heater still in service.

"My mother used to brag about that heater," he observed.

Walking out into the rear yard, he said, "There's the old woodshed, it was my favorite place to play."

"Did your father ever take you there for any other purpose?" He was asked.

"Yes, I got my whalings there," he replied. "One, I remember, was when I threw a ball through the schoolhouse window."

Out in the garden he suddenly asked for some elderberries. "So I can have an elderberry pie baked on the train."

Mrs. North offered to pick the berries from her own garden, Landon helped her fill the basket.

One old acquaintance he remembered was S. C. (Grant) Flynn, keeper of the candy store. "Hello Grant," the governor roared. "I'll never forget you. I spent every penny in your store."

Back in the house again Landon observed a photograph of his paternal grandfather, Emanuel Landon.

"We haven't a copy of that picture in our family," he said. "I cer-

tainly would like to have a copy of it," Mrs. North promised to send him one.

The governor then crossed the street from the old Landon home to the First Methodist Episcopal church where the maternal grandfather Reverend William A. Mossman preached for many years. He entered and viewed the pew where he sat as a child.

Before leaving his home he planted a kiss on the mouth of his elderly aunt, Mrs. W. H. McMaster of Jamestown, Pa.

Then he released a pigeon into the air. It was a carrier from Pittsburgh. It carried a photograph of the governor to the newspaper.

Visiting Flynn's "racquet" store on the way out of town, Landon said "it's the same old place."

Grant agreed. "Yes, governor there's not much change."

"Well, I'll have to buy something," Landon continued. "I'll take a copy of the old Conneautville Courier."

Landon started to hand Flynn a nickel but the aged storekeeper waved it away.

"Not this time Alf," he said. "Now come back when you're president."

"I will," Landon promised.

Back in the center of town Landon visited an old hotel, converted now into Landon headquarters for Crawford county. He spoke to assembled thousands. He recognized scores of childhood friends in the crowd and gave them personal greetings. Then he thanked the people of his old home town for their courtesy in coming out to welcome him home.

Landon's last act in his old town was to visit the cemetery where his ancestors are buried. Making the visit alone, he viewed the graves of his great-grandfather, Thomas Landon, a Revolutionary War soldier under George Washington.

Thomas Landon, Jr., his great-grandfather, who fought in the War of 1812, and Emanuel L. Landon his grandfather. He bowed a moment at each grave and then returned to his train to resume his journey into New York state.

CITY OFFICIALS MEET NEXT MONTH

Mayor H. Lysle Of McKeesport To Open Third Class Cities Pow-wow

Lancaster, Pa., will be host to delegates to the annual convention of the League of Cities of Third Class on September 9, 10 and 11.

The sessions will be held in the Hotel Brunswick, with mayors, solicitors and other municipal officers present. It is not yet known how many officials from New Castle will attend the meeting, council not yet having made a decision.

A conference of mayors, with George H. Lysle of McKeesport in charge, will open the Wednesday morning session at 9 o'clock. Another conference for directors or superintendents of accounts and finances and controllers will be held simultaneously, with Charles W. Burnett of Harrisburg as chairman.

The 39th annual convention of the league will open on Thursday morning at 10:15 o'clock, with the singing of "America" followed by the invocation by Rev. Henry B. Strock, pastor of the First Presbyterian church.

James H. Ross, mayor of Lancaster, will welcome the visitors and Harry B. Anstine, mayor of York, will give the response. Rollcall will be made by Byron C. Houck of Williamsport, secretary of the league.

Official reports will be given by the following: Byron C. Houck, secretary; Herman A. Earley, Harrisburg, treasurer; A. A. Cochran, Chester, law committee; Herman A. Earley, Harrisburg, legislative advisory committee; and W. E. Greenwood of Coatesville, who will speak for the executive committee.

At 11:30 o'clock Thomas A. Logue will speak on "The Relation of the Department of Internal Affairs with the Municipalities of the State."

The Thursday afternoon program will be featured with a talk by Dr. J. A. Delelsen, director of the police school of eastern Pennsylvania, at Swarthmore, on "The Problem of Statewide Police Education."

AROUND CITY HALL

City of New Castle received a communication from the state highway department yesterday in which the city was asked to adopt a proposed ordinance by which the state department would be given authority to issue permits for the opening or tearing up of all streets which are continuations of state highway routes here. The proposed ordinance, if passed, would provide that fees for such permits shall be paid to the state highways department. A fine of \$25.00, would be imposed for violation of the ordinance. Council took no action on the proposed ordinance. However the communication was referred to committee for probable consideration.

Council has not yet taken any action looking forward to their attendance at the convention of Cities of the Third class which is to be held at Lancaster, September 9, 10 and 11. Some days ago Finance Director J. Leon Fink said he would like to attend the meeting as there were problems with which he would like to become more fully conversant.

Hotel reservations have been secured but as yet the men who will go to Lancaster have not yet been decided upon.

Indications are that the city health officer will immediately launch plans for ascertaining what private sewer is broken and responsible for the alleged health menace in Quess street. Liquid will be placed in all the private sewers for the purpose of finding out which one is broken. No doubt the health officer, Dr. William L. Steen, will have the cooperation of the city engineering and sewer departments.

Twenty Thousand At Erie Station To Greet Gov. Landon

Brief Address Is Made At Station By Republican Candidate

(International News Service)
ERIE, Pa., Aug. 25.—"There is no future for any American on the relief rolls. The American solution for unemployment is a real job at good wages," Governor Alfred M. Landon declared here Monday afternoon in a brief address to 20,000 persons at the railroad station.

The governor praised the courage of those "upon relief rolls and who worked at odd jobs" because "it was upon them the heaviest blow of the depression fell."

"Every American can be proud," he added, "by the way in which we have met the challenge of the depression. We have put to the test American character and the way we met that test gave new proof, if any were needed, of the courage, the honesty and common sense of the every-day American."

Landon recalled his frequent visits to Erie in his youth.

"I remember clearly the old Reed house," he said. "I once thought it was the grandest hotel in all the world."

He also told how his great grandfather, Col. Arseny Christie, raised a troop of soldiers in Erie to join Admiral Perry in the battle of Lake Erie.

Controller Hill Rotary Speaker

County Official Tells Of Duties Of Office At Meeting On Monday

Declaring that upon the shoulders of the county controller rests the responsibility for the fiscal affairs of the county government, County Controller Frank W. Hill told the Rotary club at its luncheon in The Castleton, Monday, that "it would be folly for this county or any other county to be without the office of controller."

The youngest official at the Lawrence county courthouse, Mr. Hill, in his comprehensive message, described the new methods and systems which have been installed by the controller's office since the county chose its first one four years ago.

Going into great detail, the controller told where the Lawrence county taxpayer's money has gone this year. He told where savings have been, are being and will be effected. He pictured the part the

county has in maintaining it mentally ill residents in institutions and in general told the financial operations of the county.

The controller was introduced by Russell McClelland, member of the Rotary's program committee for this month.

dollars, after 1870, he thought he had asked for about all France could raise after a hard war. The French government offered bonds to pay Bismarck and the French people subscribed to the loan 14 times over. Bismarck had guessed badly. France is far richer now than it was then.

FRENCH LABOR DEMANDS the 40-hour week and the government agrees; it also demands wage increases of from 12 to 17 per cent, and that makes the country a little thoughtful.

With a shorter week, diminished production and higher wages, bread, sugar, veal and many other things must go up in price. Possibly the French worker, who really works,

while he is at it, will manage to produce much in 40 hours as he has done hitherto in 48 or more, even then increased wages will be added to the price of living and even the worker, who must pay, will growl.

HOW LONG WILL AMERICA continue pouring thousands of millions of dollars into gambling, lottery, sweepstakes and other foreign enterprises?

It is interesting to read that in the banks of Dublin there are twenty-five millions of dollars undistributed from the so-called "hospitals sweepstakes". Hospitals did not get it—yet.

IT MIGHT ALSO ENLIGHTEN this government to know that under the law no mention can be made of the sweepstakes gambling in England. The English are too wise to let their money be drained off in any kind of gambling enterprise, if it is not ENGLISH.

You cannot even send a telegram about sweepstakes over the English telegraph wires, to be published in countries outside of England. All telegraphing about the sweepstakes gambling must go around England, her government-owned wire system will not handle it.

Under its Constitution, the United States government cannot forbid newspapers to print lottery news that breeds more gambling and heavier losses. But the government might forbid transmission of such information through the postoffice. That would cut down the "graft."

P. PAULSEN of West Lynn, Mass., recommends a Norwegian government lottery system in which some win good prizes and nobody loses the original price of the ticket. It sounds unreasonable.

Mr. Paulsen explains that the Norwegian government, instead of paying interest on its bonds, issues tickets, has drawings, pays large prizes, and yet, in due time, buys back all canceled tickets at their face value, without interest. The government saves money because prizes drawn, while large, amount to less than the interest.

That would be the best kind of lottery here, if we must encourage gambling, although banks would not like it.

Death Sentence Quickly Imposed

Clemency Pleas Denied And Bolsheviks Are Summarily Executed

NO DETAILS GIVEN ON DEATH METHOD

(BULLETIN) (International News Service) MOSCOW, Aug. 25.—Denial of clemency by the president of the Central Executive Committee, Gregory Zinoviev, Leon Kamenev and 14 other alleged Trotskyist plotters were taken into their prison courtyard at dawn today—barely 24 hours after they were sentenced—and shot to death by a red army firing squad.

A bare announcement that the sentences of the court had been carried out fluttered from the wall of the Kremlin, giving no details of how the schemers, the first "old Bolsheviks" to be executed in the 18 years of intra-party strife, had met their deaths.

"Purge" To Continue Even before their shooting was announced, however, the official communist press made it clear that the "purge" would continue. Seven more are now being investigated as suspected counter-revolutionaries.

Legally the condemned men might have lived until 3 a. m. Thursday, 24 hours after their doom was pronounced. Apparently the president, the sole court of last resort in their case, acted speedily and voluntarily.

—for it was not believed that the prisoners, all of whom regarded their case as hopeless, had lodged an appeal.

Shot with Zinoviev and Kamenev were T. Smirnov, A. Evdokimov, T. Bakiev, S. Mirchikov, V. Olberg, K. Berman, Yurik, Fritz David, Moses Lurie, N. Yaris, T. Reingold, R. Pickel, V. Tervogianian, E. Dreitzler, and E. Holzman.

Plead Guilty To Plot All pleaded guilty to participation in a plot, allegedly inspired by the exiled Leon Trotsky, to murder Joseph Stalin and other Soviet leaders. Although many have been exiled and imprisoned—Zinoviev and Kamenev were brought from jail to face trial for their lives—none of the original Bolsheviks who rebelled against the czarist regime had been executed up to now.

Zinoviev and Kamenev each was 53 years old. Friend of Lenin for 20 years, Zinoviev was once president of the communist international, and Kamenev was chairman of the all-Russian central executive committee. With Stalin, they ruled the Soviet union following the death of Lenin, until Stalin seized power for himself, exiling Zinoviev and Kamenev, who were later restored to minor positions.

Select Jury To Try Slayer At Washington, Pa.

James McGinnis, 44, Faces Death Penalty For Fatal Stabbing Of Girl

(International News Service) WASHINGTON, Pa., Aug. 25.—Only eight jurors of the 14 required had been selected today as the trial of James McGinnis, 44, of Avella, for the "razor slaying" of pretty Grace Ellen Gillespie, 18, last March 9, swung into its second day.

Facing a charge which demands death in the electric chair as the penalty, McGinnis displayed little emotion as attorneys questioned prospective jurors as to their prejudices concerning capital punishment and opinions in regard to the case being tried.

Miss Gillespie was slashed from ear to ear in the basement of her home. McGinnis is charged with having followed her there when she went to perform an errand for her mother.

Screams were heard in the basement and a few moments later the girl staggered up the steps and fell dead at her mother's feet.

West Middlesex Gathering Shows State For London

So Declares Eastern Campaign Manager, Joseph W. Martin, Jr.

(International News Service) NEW YORK, Aug. 25.—Rep. Joseph W. Martin, Jr., eastern campaign manager for the Republicans, today made his first comment on the speeches of Governor Landon in Pennsylvania and New York.

"Governor Landon's talks are doing a lot of good," the Massachusetts congressman said. "They are stimulating interest greatly in the Republican campaign."

"He has helped the campaign very much in New York, though I think we already are way out ahead in this state."

"And anybody who saw those automobiles lined up in solid ranks for four miles in that little valley at West Middlesex, couldn't help seeing that Pennsylvania is Republican."

"There is no question now but that we'll carry Pennsylvania," Mr. Martin said. "The Republican machine in this state is doing a lot of good. We'll carry Philadelphia and we are stronger in the rest of the state than we were in 1932 or 1934."

"Now that the wet and dry issue is out, we will gain strength in the ranks of labor in Pennsylvania."

Secretary Dern Growing Weaker

Anxiety Felt Over Illness Of Secretary Of War, Had Influenza Attack

(International News Service) WASHINGTON, Aug. 25.—Anxiety over the condition of secretary of war George H. Dern was felt here today.

At Walter Reed hospital, where Dern has lain ill for several weeks, he was reported "slipping" by the surgeon-general of the army.

While Dern's condition was not reported as hopeless, it was said that he had been growing gradually weaker for the past two days.

The 63-year-old secretary is suffering from heart complications following a relapse from an attack of influenza.

Relief Budget For Month Approved

(International News Service) HARRISBURG, Aug. 25.—A total budget of \$5,601,050 for the state's relief expenses during September today stood approved by the State Emergency Relief Board.

Of the total budget, \$672,000 was set aside for administrative costs. This represented the 12 per cent as provided for during the special session. In future months, the amount allowed for administration will be scaled down progressively to meet the January 8 per cent limitation agreed on during the emergency session.

Karl De Schweinitz, state relief director, said administrative costs would drop "much lower" when the proposed cash relief system goes into effect.

Parents Of Slain Girl Extends Sympathy Toward Young Radio Operator

DIARY OF GIRL TAKEN BY POLICE

(International News Service) HOLLYWOOD, Aug. 25.—A young girl's diary today entered the police investigation of the love strangulation of pretty Muriel Lucille West, 19-year-old socialite.

Seeking a motive for the crime to which Miss West's rejected suitor, Winston Gardner, has confessed, ace detectives today scanned intimacies which the girl jotted down in her little book.

Although they kept the writings a secret, the officers intimated they showed Miss West was interested in another man. This would supply a motive for the strangulation which Gardner says he committed in an "insane rage."

Prays For Death. Gardner, a 23-year-old radio operator aboard the U. S. S. Maryland, continued to pray for a speedy death sentence in his solitary cell here today. He told police he strangled the girl with a bath towel in his sister's apartment after she told him she did not want to see him again.

From an unexpected source sympathy came for the confessed slayer today. It was voiced by Mr. and Mrs. Stanley West, parents of the murdered girl, who said they felt no bitterness toward the handsome young sailor.

"He must have been in a temperamental rage," West said. "I feel sorry for him."

Had Toothpick In Appendix

Surgeons Make Discovery In Operating For Attack Of Appendicitis

(International News Service) PITTSBURGH, Aug. 25.—Toothpicks and appendix at first glance have little in common—but to Charles E. Rickabaugh, Johnstown railroad machinist, they were practically the same thing.

For two weeks Rickabaugh suffered excruciating pains in the region of his appendix, and doctors advised an immediate operation, for which he was brought to Pittsburgh.

In the operation room, surgeons were all set to do a little carving—until they found the toothpick.

It appeared Rickabaugh had swallowed the pick—or ordinary table-style—and physicians said it had worked its way into his appendix and perforated it in such a way the pick itself was whole and unsplit.

As for the appendix, doctors said there was nothing wrong with it, but that the patient will have to stay in the hospital another week or so to recover from the toothpick.

Woman Victim Of Horse Whipping In Philadelphia

(International News Service) PHILADELPHIA, Aug. 25.—Police had an old-fashioned horse whipping case on their hands today, but they like the victim were still trying to find out what it was all about.

Mrs. Bertha Zwirzma, 38, was in jail on charges of Mrs. Mary Akerman that the woman flayed her with a braided lash on the street in broad daylight. The alleged assault occurred a week ago, but Mrs. Akerman delayed reporting it.

Although Mrs. Zwirzma has adamantly refused to say anything, police said the motive was jealousy.

Report Abd-el-Krim Makes Escape

(International News Service) PARIS, Aug. 25.—France was electrified today by a report in the newspaper L'Aten that Abd-el-Krim, redoubtable Moroccan tribal chief who crushed two Spanish armies with a handful of followers and surrendered only when the combined military might of France and Spain was hurled against him, has escaped from his "Elba"—Reunion Island in the Indian ocean.

There were no details in the report, which was lent unusual significance by the civil war now raging in Spain, except that Abd-el-Krim was said to be heading for an "unknown destination." Whether that destination was in the ranks of Spanish rebels or loyalists was a question.

Californians Are Ballotting Today

(International News Service) SACRAMENTO, Cal., Aug. 25.—A battle of ballots was being waged in California today with one of the largest registrations in the history of the state, and with voters confronted with a long list of candidates aspiring for state and congressional posts.

With the registration rolls carrying 3,096,829 names, and the candidates themselves totaling 568 for the 120 federal and state offices open, ballot counting probably will continue several days after the polls close tonight.

Boys Just Walked Off And Never Returned Home, Says Distraught Father

(International News Service)

PITTSBURGH, 25.—"Please help me find my boys."

With this plea, Leo B. Bonenberger, local businessman, walked into the International News Service office today to explain his two sons, Francis, 14, and Howard, 11, had been missing since early yesterday morning.

In company with a friend, Michael Mullen, 15, the boys "just walked off" and didn't come back, Bonenberger said.

"Please," the father asked, "put a description of my boys on your wires, so that if they appear in any of the many Pennsylvania cities you serve, they will be recognized."

Wanted Adventure. The distraught parent said he knew of no reason why the boys should run away, "unless, influenced by those 'Tarzan' movies, they wanted adventure and excitement."

Francis, the father said, was clad in long blue trousers and blue shirt. His brother was also dressed all in blue. Bonenberger said, with the exception he wore knee trousers. Mullen was dressed in long brown trousers, yellow polo shirt and tennis shoes.

The excited Mr. Bonenberger dashed out of the office before anyone could ask him to describe the boys' facial characteristics.

My New York

By James Aswell

Copyright, 1936, Central Press Association
NEW YORK, Aug. 25.—There has been so much talk among the local gadabouts regarding the "transparent woman" in view in the Museum of Science and Industry, in Rockefeller Plaza, that I took a run in the other afternoon for a gape. The gal is indeed a strange and fearsome creature.

She stands life-size in a sort of octagonal dish, which lights up directly to reveal her in all her clinical glory. Her "skin" is a new kind of glass, alleged to be well-nigh unbreakable and every vein, artery and organ is plainly visible within, naturally colored and wired to light up, one by one, as the name of the organ flashes around the rim of her pedestal.

A man named S. H. Camp, of Jackson, Michigan, who has a silver thatch and a benignly amiable presence, bankrolled the construction of the fragile lass. He has made a great fortune, I am told, out of the manufacture of therapeutic elastic garments, and has now retired, eager only to show his gratitude to the female sex by familiarizing the ladies with their own liver and lights, as it were. His candid dame will tour the land, under the auspices of various medical and Public Health groups.

The transparent woman should be interesting to psychologists—and perhaps even to theatrical producers. Several years ago I was in confab with Earl Carroll, the girl-show impresario and made bold to ask him how much further he thought the "daring" of American stage productions would go. How much more nudity, in fine, would the public and the gendarmes tolerate?

He lifted an eyebrow, gave me a pale smile.

"How much more? Why, there's a limit and there is nowhere else to go from there. The limit has just about been reached because when a fan dancer appears there isn't any more to expose, is there?"

But he was wrong. That transparent woman is much more revelatory than the most liberal-minded fan waver and yet she is about to be carried about the country to be

shown to school children, leaders in civic life and clubwomen. She is highly moral, even prim, standing there in her glassy skin, arms up-raised in classic pose while lights flash in her pancreas, duodenum.

Indeed she reminds a little of the wiring beneath the average city streets, with the red and blue arteries and veins neatly bundled and stretched along cartilage and bone. Now, according to Mr. Camp, who is no relation of the late Walter Camp, any woman can learn almost as much about her own body in an afternoon as she already knows about her automobile.

She can probably learn a great deal more. Few women I know—or men, either, for that matter—could tell you offhand the location and function of a timer any more than they would be able to identify the thyroid gland in the human body.

The transparent woman—there are already three transparent men extant, none of which, they say, can hold a candle for impressiveness to the lady of the group, made in Dresden at a cost of about \$30,000—will no doubt serve a laudable educational purpose. It will show the girls that they are most definitely not made of sugar and spice. It will rearrange many of their notions about their innards.

And yet it is a bit disconcerting too. With so many gadgets, each essential to the operation of the larger machine, it occurs to you that under the law of averages something is sure to go wrong somewhere in the mechanism at a great cost of pain and doctor's fees. Something, indeed, usually does. A spare parts are rare, to be had if anything more complex than a molar falls.

Women Lawyers Open Convention At Boston, Mass.

Women Lawyers Will Strive For "Equal Rights" In Convention

(International News Service)
BOSTON, Aug. 26.—Seeking "equal rights," women lawyers from 38 states are meeting in the 37th annual convention of the National Association of Women Lawyers.

One of the chief discussion topics at the session was the amendment before congress which gives women attorneys the same rights as men attorneys.

Another move was for establishment of intermediate courts to handle criminal cases involving youths between the ages of 16 and 21. Association members pointed to the work of the Brooklyn, N. Y., court as evidence of the feasibility of the plan.

The Brooklyn court was established to care for young criminals too old for juvenile court. Under the plan proposed at the convention the courts would be established in all states.

Uniform divorce laws in all states were advocated by the convention.

Leon Grandovich Defeats Eustace

King Kong And Abe Rothberg Provide Night's Excitement

MALONE WINS BOUT IN FIVE MINUTES

Leon Grandovich, of New Jersey, tossed Allan Eustace, Kansas "Boa constrictor" with a back flop in 27 minutes before a crowd of several hundred wrestling fans at Centennial field last night. Before the fall occurred the advantage zigzagged. Considerable straight wrestling was employed. Both men stood more than six feet tall and each weighed 230 pounds.

Before the fall was scored the wrestlers demonstrated particularly every hold in wrestling. Time and again they broke out of toe holds and scissors. The saw headlock was much in evidence and while the bout was rough in spots there was no time when either was hurled out of the ring.

The show of the night occurred between King Kong, covered with long black hair and Abe Rothberg of Denver. It was a scream from start to finish. King Kong succeeded in drawing the fire of the crowd.

Rough Work
During the bout, slaps, kicks and kneeling predominated. In rough work Rothberg usually gave as good as he received. At one point King Kong seized Abe's green sweater from a ring post, wrapped it around Rothberg's head then nailed him several good punches. Rothberg won in 15 minutes with a flying mare followed by a body slam.

Tony Marchoni and Rough-House Nelson wrestled 30 minutes to a draw. The bout mostly was confined to wrestling. In spots they burlesqued. However, both were evenly mated, showed plenty of holds including one which caused the fans to shout "Ride him, Cowboy, Ride him".

In the first bout of the night Eddie Malone came through flying in five minutes. He put a crab hold on Pete Kosar and the latter's shoulders were pinned to the mat in five minutes.

The next show will be held one week from next Monday night at the Old Armory building in Neshannock avenue.

Pirates Thump Cardinals 17-5

Giants Idle And Go Into Tie With Cards For First Place

By LAWTON CARVER International News Service

NEW YORK, Aug. 25.—Tied with the Cardinals for the National League lead, the Giants today carried their battle for the pennant into the mid-west and there, during the coming 11 games with the circuits toughest clubs, their fortunes for the season probably will be decided.

The Giants opened today at Cincinnati and from there move to Pittsburgh and Chicago and windup finally against the Cards, who meantime will be playing the easy eastern clubs and probably improving their position, although their game of yesterday might indicate that a slump has arrived.

Some Defeat
The Pirates handed them one of the worst defeats of the season in pounding out 25 hits against Paul Dean, Heusser, Earnshaw and Rhem for a 17 to 5 victory, knocking them out of the undisputed lead into tie with the idle Giants.

Not only did the Cardinal pitching fold up again, but their hitting was none too potent and they contributed a couple of errors.

The Cubs whipped the Reds by 2 to 1 in 10 innings when Augie Galan singled behind two Red errors for the winning margin. They are only three and one-half games behind the leaders.

In the day's only other game, the White Sox beat the Tigers for the third straight time, 8 to 4.

Owens Is Given Great Welcome

Cleveland Pays Tribute To Greatest Olympic Star Of Past Decade

(International News Service)
CLEVELAND, O., Aug. 25.—Jesse Owens, America's brilliant Olympic star, returned to his home town today to receive one of the greatest welcomes ever accorded a local athletic hero.

The dusky track star arrived at an East Cleveland railroad depot from New York and was met by a huge crowd of Clevelanders headed by Mayor Harold H. Burton. Burton, now on a vacation, flew to Cleveland by plane from the Adirondacks, to turn over the city to the world's "fastest human."

AHOY!—Roger Bernheim, left, and Jean Bloch are here from France to compete in Rochester yacht races in September.

HERE AND THERE IN SPORTS' LAND

Many local fans are getting ready to see a feather-weight champion in action Wednesday at Youngstown. He will be Pete Barron conqueror of Freddie Miller. Promoter Al Zill has booked Jackie Carter, Washington, D. C. as opponent.

Jess Willard, former world's heavy-weight champion, intends to go into the restaurant business at Pittsburgh, according to Bob Laters who manages the ex-champion. Willard is being sought as one of the referees at Akron, Thursday. Jack Dempsey already having signed to be one of the arbiters.

Eddie Zivic of Lawrenceville returned to the ring at Pittsburgh last night to drop a 10 round decision to Frankie Kilch of Cincinnati. Both judges and the referee voted for the Californian. The bout drew \$2,211.00, which was one of the best sums taken in at the gate for an ordinary bout.

With September only a few days distant and football in the offing the season's championship of the Lawrence County Baseball loop will be settled soon. The second of a five game series between the Tin Mill and Bessemer will be played at Bessemer Wednesday. In the meanwhile Rose Point claims the championship of the Township league, a new loop here.

Peter Askanowicz the wrestling man, staged his last show this summer last night at Centennial field. In two weeks he will open the doors of the Old Armory in Neshannock avenue. Last night Askanowicz let all the youngsters into the show.

UNINJURED UNTIL 61ST ACCIDENT
(International News Service)
KANSAS CITY.—Albert Claus survived 60 auto accidents without injury—but the 61st put him in the hospital.

The first 60, however, were carefully rehearsed and staged as part of a safety film made by the police department here. Claus, a mechanic at the police garage, was chief "victim" and stunt man.

The 61st accident occurred while Claus was hurrying on his motorcycle to repair a disabled police squad car.

"If you're going to be in an accident, rehearse it first so you won't make any mistakes," Claus advised from his hospital cot today.

NEW YORK, Aug. 25.—Steel and amusement shares, followed later by sugars, led a new rise in the stock market today with gains of 2 points and more. Profit-taking around midday cut the gains but the undercurrent remained firm.

U. S. Steel preferred set the pace for its group, rising more than 2 points to a new high on dividend hopes. Bethlehem rose around a point, while the others were fractionally better.

Loew's spurred over 2 points in the amusements and Warner Brothers was active and higher, responding to forecast of the biggest box office receipts in years this fall.

Crown Cork & Seal was an outstanding specialty, rising over 3 points to a new high since 1929.

Rails were fractionally better while oils improved somewhat.

Motors hovered around previous closing levels in quiet dealings. Utilities were up slightly while American Telephone rose over 2 points.

Some of the merchandising issues were buoyant, and new highs were set by United, Bloomingdale, and Abraham & Straus. Farm implements scored gains running to a point.

Grains were heavy and cotton steady. Bonds were higher.

Football Squad
Of Experience To
Greet New CoachSeven Lettermen Left To
Form Nucleus Of New
Grid Machine At Ellwood HighCOACH WILL MEET
CANDIDATES HERE

ELLWOOD CITY, Aug. 25.—With the announcement of the arrival of Head Coach Bill Mitchell to take over the football reins in Ellwood City high school, interest and enthusiasm is running high.

Coach Mitchell arrived at the high school this morning and held a conference with the managers and prepared for the issuing of equipment to the grid candidates Wednesday afternoon at 1:30. All will be given medical examinations also.

A high note of enthusiasm is running here for there will be 32 experienced players, including seven lettermen, who will be ready for work tomorrow. Six of the latter were varsity regulars last fall. They are Bill Young and Anatro "Russia" Punari, halfbacks; Bill Daufen and Harold Young, tackles; Joe Pishonier, guard, and Jim Flanagan, end. The other lettermen, Mike Perry, second string guard, saw plenty of action last fall and is ready to give anybody a run for their money this season.

George Robuck, the eighth letterman, who broke a leg last fall, has stated that he will not report for football but will concentrate on basketball this year. This will give more time for his leg to thoroughly mend.

There are eight backfield men and 18 linemen who saw action besides the above last season. Some of these had distinguished themselves. The backs are Sam Leopoldi, Vincent Galati, Tom Rocco, Jack Snare, Frank Kolch, Tom Jones, Bill Marshall and Fred Gentile, and the linemen are Clarence Ungam, Al Bettoni, Harold Ruppert, centers; Nick Gib, George Bondi, Ben Keller and Harry O'Brien, guards; Mike Santillo, Andy Fehl, Frank Blaine, Chester Mack and John Cunningham, tackles; Kenneth Welsh, Ben Bartle, Herman Berendt, Eugene Sam and Milton Young, ends.

And the thing to gladden the old eye is that most of these have put on weight. The vacation period has treated them good. All are a healthy tan color and just itching to do the leg of muleskin on again. Bill Young has put on 21 pounds to tip the scales at 187 now, Punari 20 at 160 pounds now, and Rocco, a promising tackle, hits 206. Coach Schill has been considering to groom him for a fullback this year and Pishonier for center. The latter has also put on ten pounds. So from all indications this year's team should be big, fast and shifty.

As He Sees Fit

(International News Service)

CLEVELAND, Aug. 25.—Dr. Francis E. Townsend today resumed the witness stand in the court of common pleas Judge George Kerr for taking of depositions in the million dollar receivership suit against his old age revolving pension organization.

Yesterday's session, which was not adjourned until late last night, was featured by bitter clashes between attorneys as Benjamin F. Sacharow, counsel for the plaintiff in the suit, continued to question the 62-year-old California physician regarding the financial administration of the O. A. R. P.

Dr. Townsend emphatically defended his right to spend the organization's money without consulting other leaders in the movement.

"I am the president of the O. A. R. P.," he declared. "All I have to do is to order the money drawn from the account. I merely tell the treasurer what I'm going to use it for."

This statement was made after Sacharow, representing Rev. Alfred J. Wright, former Townsend director, demanded an explanation for turning over \$500 to the Townsend visual education, Baltimore, Md., stereopticon project. Sacharow declared that Townsend ordered Baxter G. Rankine, national treasurer, to withdraw the money and "keep still" about it.

PUBLIC APPRECIATION

August 25, 1936.
To the Editor of The News and
Citizens of New Castle.

New Castle has just finished en-
tertaining a number of distinguish-
ed guests, among whom was Gov-
ernor Alfred M. Landon of Kansas.

In making preparations for this
occasion the police department real-
ized that they had a big traffic prob-
lem with which to contend. In mak-
ing their plans they called upon the
citizens to help them in their park-
ing and traffic regulations and we
received fine cooperation. We had
the volunteered services of members
of Troop F and the firemen who were
not on active duty, also a number of
constables of the city, and police-
men doing double duty. These men
are to be highly commended for the
sacrifice they made in giving up
their opportunity to witness the
memorable event which took place
at West Middlesex and New Castle.

We realize too that a large number
of citizens were put to a lot of in-
convenience due to the necessary
traffic regulations, and as mayor
and head of the police department,
I wish to take this method of pub-
licly expressing our gratitude to all
those who responded so willingly,
and to the New Castle News for its
part in carrying our requests so
freely to the public.

I had the opportunity, on the de-
parture of Governor Landon and his
party to personally hear them ex-
press their appreciation of the fine
treatment they received while in
New Castle and I feel that the citi-
zens can rightfully be proud of the
impression left in the minds of these
visitors.

Sincerely,
CHARLES E. McGRATH,
Mayor.
